BACKGROUND

International Conference on Science and Natural Resources or ICSNR was established to promote systematic collaboration in research, development, innovation and commercialization between multidiscipline scientists and industrial practitioners as well as public in the related fields. Following to the success of the three ICSNR conferences in April 2016, 2017 and 2018, United Scientists and Engineers International (UniSE International), in collaboration with e-VIBS and Faculty of Science and Natural Resources of the Universiti Malaysia Sabah are organizing the 4th International Conference on Science and Natural Resources 2019 (ICSNR4) in April 2019. The conference is also supported by the Transactions on Science and Technology journal.

OBJECTIVE

To promote research and development in the field of science and natural resources among scientists, engineers, lecturers, school teachers, postgraduate students, practitioners as well as individual enthusiasts in science and natural resources.
